# ICEBOX

Fraser Valley  
Sports Complex  
Ice Rink  
Refrigeration Project

The project is certainly no small task. To accommodate the addition of a refrigeration unit, the complex will include three main facets; the running of three-phase power, installation of the necessary refrigeration equipment and an addition to the existing complex.

As of today, the FVMRD and Fraser Valley Recreation Foundation, alongside the Fraser Valley Hockey Association have raised \$670,00 of our \$770,000 goal to fund the project. A large portion made possible through generous donations by both the Town of Winter Park and the Town of Fraser, in addition to Grand County. Grants from D.O.L.A (Colorado Department of Local Affairs), CAHA (Colorado Amateur Hockey Association), the Grand Foundation, the Fraser River Valley Lions Club and other private and local entities. Recently, a private donor made a generous contribution of \$10,000. Several local contractors have committed to donating their time, hard work and resources.

The FVMRD and the Fraser Valley Hockey Association have their eyes set on breaking ground May, 2018. The goal is completion by September 2018, in time for the 2018-2019 season.

Whether you are a hockey player, ice skater, future Olympic curler, or simply an individual who wants to see our beautiful community continue to improve for local families, youth and visitors alike, we hope you will help with this final push in reaching our fundraising goals.

## Why the need for Refrigeration?

Opened in 2010, the Fraser Valley Metropolitan Recreation District's (FVMRD) Icebox complex is a popular recreation staple of the Fraser Valley community. After seven years of increased use – hosting everything from youth and adult hockey programs to open rink sessions – the complex now needs your help to further its reach and ability to serve local community members and visitors.

During the current 2017-2018 season, the Icebox has hosted 36 youth hockey games, 100 adult games, several curling clinics and learn-to-skate programs. The Fraser Valley Hockey Association has 100 current players participating on 7 Youth teams and 18 adult teams. We also had 21 Intro-to-Hockey participants. Numbers are only expected to increase. Youth hockey is gaining popularity, and with a short season **compared to nearby communities, it's a challenge for our young athletes.** Local players are forced to travel for practice before they can get time on local ice.

How long could the refrigeration project extend the **Icebox's season? 8 to 12 weeks, most of it falling upon the opening half of the season.**

**A longer season isn't just a benefit to our local athletes, It has economic upsides as well.** The Icebox has proven to be a popular recreation destination for visiting families, tourists and more. With the chance to extend the season comes the chance to host more home games, more open skating sessions, and more opportunities; further attracting people to our wonderful community and the local businesses that **make it all a place we've grown to know and love.**

*We are 90% there! Become a part of this incredible community opportunity through donation of money, labor or hard goods. Your donation shows community support enhancing our chances of making this project a reality.*
